February 10, 2012

Dear Neighbor,

The Fox River Navigational System Authority is developing the lock operation schedule for the coming season. We have received several phone calls at our office requesting expanded operation for the section between Little Chute and Menasha.

What we are trying to do is establish a schedule that satisfies requests vs operational cost.

Will Dorsey

CEO
Harlan Kiesow

Your response to these questions would help us establish the schedule. Thank you.

1. Do you keep a boat moored at your dock?
Is it on a "shore station" type boat lift?
2. What days of the week would you most likely use the locks between Little Chute and Menasha?
3. What hours should the locks operate Monday through Thursday?
4. What hours should the locks operate Friday through Sunday and Holidays?
5. Any other concerns or suggestions? (There will be Navigation Buoys)

Thank you for your support and assistance in getting answers to the above questions.
